LE ANTICHE ICONE RITRATTE DALLA SINDONE

2011

THE ANCIENT ICONS REPRODUCED FROM THE SHROUD

The strict comparison between the Christ face of the first bizantine icons and the face of the Shroud shows the same irregularities of features and the same proportions.

This study proves that the Shroud has been exposed in the first centuries, as other documents witness.

But above all we are certain that nobody doubted the genuiness of the Shroud. All people knowed the extraordinary, sole nature of the phenomenon that produced the image, so that artists reproduced the specular image of the face.
